

Courtney Bird- Veterinary Technician

Courtney started with Rock River Animal Clinic in 2023. She has been in the veterinary field for nine years. Courtney has a particular love for large animals, especially cows! On the small animal side, she really loves preventative care and surgeries. Courtney really likes continuing education and always wants to learn new things in her field. She brings an energetic smile to every client interaction.

Courtney lives in a farmhouse, just outside of Janesville, with her husband (Randy) and her two children (Remington and Gatlin). They have three labra-dorks- River, Lakeson, and Creek (yes, one of every color) and three crazy cats- Mater, Minnow, and Moo. The newest additions to the

family are 12 chickens and 2 ducks! When Courtney is not working, 9 out of 10 times you will find her at a sporting event for her kids. Other things she enjoys include nature hikes and traveling to different waterfalls in the United States. In the fall, she enjoys hunting with Randy and River.

Welcome to Rock River Animal Clinic, Courtney. We are so glad you have joined our team as we strive to provide excellent veterinary care to the Fort Atkinson Area.
